The Impact of the Internet

The internet has had an impact on our lives because it lets us communicate and have fun with people all over the world we wouldn't have met otherwise in online video games.

Popular Video Games

- League of Legends
- Smite
- Dota 2
- Counter Strike : Global Offensive
- Warframe

Popularity of Video Games

- According to the Entertainment Software Association more than 1.2 Billion people play video games.
- That is 17.14% of the total population of the world
- Of that 1.2 Billion about 700 million play video games ONLINE
- That 700 million amounts to 44% of the online population
